

Strong silent type.  
Life safety, no power required.

The touchbar that  
helps save lives. 

**PATHLITE™**

PathLite™ is the photoluminescent touchpad cover option for the Corbin Russwin ED4000 and ED5000 exit device series. In addition to being cost-effective and especially suited for retrofitting, *PathLite* patent pending (U.S. Patent Application No. 10/904,231) technology offers a number of benefits:

- Recharges with exposure to ambient light- requires no wiring or maintenance
- Unaffected by heat or cold
- Non-toxic, will not rub off or fade
- Vandal- and fire-resistant, non-radioactive
- Bold word "EXIT" centered on green touchbar in 1-1/4" high lettering

*PathLite* photoluminescent exit devices meet New York City's newly adopted standards for requirement of photoluminescent signage and stairwell marking in all office buildings in excess of 75 feet height.
