## KeyWizard® Version 5.5

### Corbin Russwin Announces the Availability of KeyWizard® Version 5.5

Corbin Russwin is pleased to announce the availability of a new and improved version of *KeyWizard* key management software. Now, with version 5.5, end users, security directors or locksmiths can easily and efficiently manage keys, keyholders, and locations with even greater speed and functionality.

#### Version 5.5 New Features:

- Windows® 7 and Vista compatible
- Expanded help files
- Even greater operating speeds
- Expanded and improved sort capability
- Improved pinning calculators
- Improved reports options including printing in a variety of formats and email
- Cleaner, updated screen views
- Cylinder and key random serial ID generator
- Improved key authorization forms that can be printed at will
- Editable field titles
- Ability to connect to a website and search for any updates
- Fully staffed, Live Technical Support: 800-610-1706

Key control for a facility is maintained by adopting a complete system of policies, procedures, record keeping and specialized products. A comprehensive key management software program is one aspect of a complete key control system. *KeyWizard* by Corbin Russwin provides the facility with accurate information concerning keys, key holders, hardware locations, master key systems, overdue keys and maintenance service schedules, all of which can be customized.

#### KeyWizard Proven Features:

- Free Technical Support and system upgrades for 1 year
- Website support at [www.keywizard.net](http://www.keywizard.net)
- Multi-level passwords and access levels
- Clear, easy to read screens
- Manages multiple end user key systems
- Customized query, reporting, and search capability
- Global searching across multiple key systems
- Comprehensive hardware schedules
- Keyholder photos and signatures for identity verification
- Scheduled maintenance and reminders for overdue keys and back-ups
- Accurate key symbol sorting
- Multi-level key authorizations and key deposits
- Network and stand-alone versions

#### Minimum System Requirements:

- 350 MHz processor (500 MHz or faster recommended)
- 60 MB hard disk space (70 MB recommended)
- Windows® 7, Vista, XP, NT, ME, 2000 or 98
- 64MB Ram
- CD drive

#### Availability:

Version 5.5 will begin shipping for all *KeyWizard* orders after August 9, 2010.

Existing *KeyWizard* users can contact technical support for information on how to upgrade to Version 5.5.
