

Rixson Offers a Dark Oxidized Satin Bronze Equivalent

Rixson Specialty Door Controls is proud to announce the addition of a Dark Oxidized Satin Bronze equivalent (613E). This new beautiful finish provides the richness and warmth of the 613 "living" finish, but maintains its original color and appearance and will not fade or wear over time.

Durable and cost effective, this finish will be offered by Corbin Russwin, McKinney, Norton, Rixson, Rockwood, SARGENT and Yale, providing visual consistency between ASSA ABLOY Group brands.

The new 613E finish will be available on all products where 613 Dark Oxidized Satin Bronze, Oil Rubbed finish is currently offered.

We will begin accepting orders October 15, 2013. Reference the Price Bulletin for details on the pricing structure for the 613E finish.

Please distribute to everyone in your distributorship who specifies and/or purchases Rixson products. Insert this announcement in the Rixson section of your Door Controls full line catalog.

For additional information, contact your ASSA ABLOY Door Security Solutions sales consultant.
