

RIXSON®

ASSA ABLOY

New Light Duty Pivot Series

Model 173

Model 176

Rixson is pleased to announce two newly designed pivots, one offset, one center hung, to compliment its comprehensive line of door hanging solutions.

The model 173 for offset applications and the 176 for center hung doors employ a concrete anchor for a sleek installation. No floor plates to contend with and no visible attachment.

Designed for light weight (150#), narrow (3'0" and under) and low frequency doors, they are perfect for commercial tenant spaces and high end residential projects.

Attached please find the catalog pages for each model.

- All pivot buy programs apply
- Standard architectural finishes
- Normal pivot lead times
- Accepting orders now

If you have any questions, please contact your local DSS sales agency or Rixson technical support (866-474-9766).
