

Rixson® Threshold Profile 700 Changes

Because of material availability, the 6-3/4, profile 700, threshold will no longer be available in bronze or plated finishes. THEY WILL STILL BE AVAILABLE IN ALUMINUM.

When placing orders, use the profile 800 (7-3/4) for bronze or plated finishes.

700 or 800 thresholds are the only widths that can be used with Rixson's 27 or 28 closers.

This change takes effect immediately.

Any orders in-house will be converted to the wider threshold.

If you have any questions, please do not hesitate to call you're local ASSA ABLOY DSS agency or customer service.

We are sorry for any inconvenience this may have caused.

Regards,

Rixson Marketing
