

MAKE ENTERING AN ORDER EASIER SMOK-CHEK® VI ELECTROMECHANICAL CLOSER-HOLDERS

Effective August 1, 2008, all Rixson Smok-Chek® VI Series Electromechanical Closer-Holders will be shipped standard as Selective Hold Open. Selective Hold Open allows the door to hold open beyond any set point up to 175°.

Although the closer-holders will be shipped as Selective Hold Open, customers may still set Infinite Hold Open in the field, if required. This can be done by simply turning the cam.

After August 1, all orders for the *Smok-Chek* VI ending in "I" (4PUSHI, 4PULLI, 6PUSHI, 6PULLI) will automatically be changed to "S" (4PUSHS, 4PULLS, 6PUSHS, 6PULLS) in order entry.

If you have additional questions, please contact your local ASSA ABLOY Sales Representative.
