

## CHECKMATE® #6 AND #6ADJ HOLDERS

Valued Rixson® Customer:

Effective, immediately, the low profile *Checkmate* models 6 and 6ADJ, will only be available with the stop function.

The hold open and multi function versions have been discontinued, until further notice.

For projects requiring concealed holding mechanisms the heavy-duty #1 or standard-duty models #2 and #5 should be used, instead.

See chart below for conversion numbers.

All new specifications and hardware schedules should reflect these changes.

For outstanding quotes for the 6 or 6ADJ holder products, please make the necessary conversions to the other series.

If there are outstanding, acknowledged orders, contact your local DSS agencies to discuss options.

We are sorry for any problems this change will cause and will work with you on prompt resolutions.

Thank you for your cooperation and your support of *Rixson* products.
