

Access  
800®

Access  
800®

4 ways to fit the needs of any project

## Secure Access

Keep track of who enters and exits your facility doors with the Access 800® AC2. This stand-alone access control product allows you to program each of your locking hardware devices by simply using a PDA data transfer. You can update your locks quickly and efficiently using Corbin Russwin's broad selection of technologies and new programming features with ANSI/ BHMA Grade 1 mechanical locks, housed in a sleek contemporary design.

## Features & Enhancements

Software enhancements provide larger user database, improved reporting and many other capabilities

New controller used with new software adds full functionality

### Now available

Enrollment station package enrolls HID™ proximity cards into software

Forced and propped door feature

Dorm room feature

### Software Enhancements

Accessware v2.0 and Access HH software allows new and existing Access 800® users to gain the following enhancements:

- › Larger database—now 20,000 users
- › Access to software from multiple PC locations
- › Corbin Russwin now offers two PDA's—Zire 21 and Zire 31
- › Five additional compatible PDA's: Palm Zire 31, Zire 72, TX, Tungsten E2 and Aceca Meazura
- › New and improved reports—view, print and save information directly from software
- › Automated backup prompt
- › User friendly task list guides new users through the creation of a database
- › Optional forced and propped door log events (wire harness and door status switch required)

### Controller Enhancements\*

New Controller AC2 replaces current controller

Compatible with existing Accessware v.1 and above

Forced master code change from factory default for added security

Multiple supervisory users allow added functionality

Now available with Accessware v2.0 software

› Three new temporary users:

1. Number of uses (1-500)
2. Start and stop dates
3. Total days after first use (24 hour specific)

› First-in Auto-Unlock distinguishes standard unlock users from first-in auto unlock users for a specified time zone

\* The following enhancements are available to new Access 800 users. Existing Access 800 users must purchase the new controller and Accessware 2.0 software to gain enhancements.

### Hardware Enhancements

New Enrollment Station enrolls 125kHz Wiegand Format HID proximity cards, up to 40 bit format, into Accessware v2.0 software

New dorm room option prevents students from locking themselves out of dorm room

New forced and propped door harness

New Daylight Savings time compliant

As part of their promise to provide innovative, fast and effective, and higher security solutions to their customers, ASSA ABLOY Group companies offer ElectroLynx™, a universal quick-connect system that simplifies the electrification of the door opening.

**MicroShield™**  
As part of its promise to provide innovative solutions to their customers, ASSA ABLOY Group companies offer the MicroShield technology, a silver-based antimicrobial coating designed to stem the spread of germs and bacteria.
