Unrivaled Engagement Strength

The unique *SecureBolt* latching system features an oversized deadbolt engineered for longer-lasting strike contact, resisting external assault and unauthorized entry.

Features

- › At 7.7 million cycles, *SecureBolt* exit devices far surpass the 500,000-cycle certification standard established by ANSI/BHMA
- › Providing a static load force resistance of more than 3700 pounds, *SecureBolt* exceeds the UL and ANSI/BHMA requirements by almost eight times
- › The unique *SecureBolt* latchbolt design protects the door and frame from severe force, and maintains the structural integrity of the door frame
- › Safety is never compromised – the *SecureBolt* exit device requires fewer pounds of pressure to open even a loaded or bound door, thereby ensuring the safe exit of individuals during an emergency
- › The life of the door hardware is extended – mullions, doors and frames are protected when used with the *SecureBolt* exit device
- › Quality engineered – for longer life-cycle and load capacity
- › 3/4" (19mm) throw deadbolt with positive deadlocking by auxiliary bolt
- › Vandal and windstorm resistant Grade 1 hardware
- › Five year warranty

Available with Museo and Vineyard levers

MicroShield™
As part of their promise to provide innovative solutions to their customers, ASSA ABLOY Group companies offer the *MicroShield* technology, a silver-based antimicrobial coating designed to stem the spread of germs and bacteria. *MicroShield™* is a trademark of the respective ASSA ABLOY Group company.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to insure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA
